

MARKING RUBRIC

Course: CS-504 Advanced Enterprise Cloud Systems & Governance

Criterion 1: Architectural & Technical Analysis (Weight: 30%)

- High Distinction (HD): Exemplary, rigorous comparative analysis of migration patterns with comprehensive quantitative data.
- Distinction (D): Strong technical analysis evaluating multiple options with clear rationale and minor gaps in numerical data.
- Credit (CR): Competent overview of cloud architectures but limited depth in comparing architectural trade-offs.
- Pass (P): Superficial description of technologies without substantive architectural justification.

Criterion 2: Ethical AI & Data Governance (Weight: 25%)

- High Distinction (HD): Thorough integration of international ethical AI standards, proactive algorithmic bias auditing, and comprehensive data governance frameworks.
- Distinction (D): Sound ethical analysis identifying key compliance requirements with actionable mitigation strategies.
- Credit (CR): General awareness of data privacy and ethical principles without detailed implementation safeguards.
- Pass (P): Rudimentary mention of privacy regulations with negligible ethical analysis.

Criterion 3: Strategic Implementation & Risk Mitigation (Weight: 25%)

- High Distinction (HD): Sophisticated, realistic 12-month phased roadmap with proactive rollback triggers and comprehensive risk mitigation protocols.
- Distinction (D): Clear, practical implementation timeline with well-identified risk categories and mitigation protocols.
- Credit (CR): Basic project timeline with generic risks and conventional mitigations.
- Pass (P): Unrealistic or vague timeline lacking concrete milestone definitions.

Criterion 4: Academic Rigour & Professional Communication (Weight: 20%)

- High Distinction (HD): Impeccable academic prose, coherent synthesis, and flawless citation of authoritative sources
- Distinction (D): Well-structured, professional report with consistent academic referencing and minor formatting flaws.
- Credit (CR): Readable report with adequate referencing but inconsistent terminology or flow.
- Pass (P): Disorganized structure, informal tone, or frequent citation inaccuracies.
